Required criteria for approval of PMB chronic medicine benefits

Members can apply for **PMB medicine** benefits for the following 26 chronic conditions on the Chronic Diseases List (CDL). It is imperative that a patient **meets the criteria** as stipulated in the application form when applying for benefits for these conditions. The following details are provided for your information only and should kindly not be returned to Medihelp with your application. In the case of **MedMove!, MedVital Elect, MedAdd Elect, and MedPrime Elect members**, the relevant formulary must be consulted before medicines for PMB conditions are prescribed. Medihelp reserves the right to request additional information should this be required for specialised medicine or out-of-protocol medicine requests.

PMB condition	Requirements for all benefit options
Addison's disease	<ul style="list-style-type: none"> ICD-10 code and diagnosis by an endocrinologist, specialist physician, or paediatrician

Urinary incontinence	<ul style="list-style-type: none"> ICD-10 code and diagnosis by a registered medical doctor

Surname and initials of main member _____

Name of patient _____

Member number

--	--	--	--	--	--	--	--

Section 4: Diabetes mellitus type 2

Date of diagnosis _____

Diagnostic fasting blood glucose or HbA1c value _____

Current HbA1c value (not older than 1 month) _____

Current weight _____

Current BMI _____

Weight loss goal or weight loss plan (if applicable) _____

Current e-GFR (if applicable) _____

Medicine history

Medicine	Dosage and strength	Duration of treatment	Reasons for discontinuation

Motivation if treatment other than metformin, sulphonylurea, or DPP-4 inhibitors is prescribed

Please specify the medicine you are applying for

ICD-10 code

Surname and initials of main member _____

Name of patient _____

Member number

--	--	--	--	--	--	--	--

Section 5: Hyperlipidaemia

Please supply the baseline lipogram values. If the baseline values are not available, confirm that the lipogram was done on therapy and specify the medicine currently being used.

Please attach the pathology report to this application.

Baseline lipogram or On therapy

Total cholesterol _____ Triglycerides _____

HDL _____ LDL _____

If on therapy, indicate the medicine used when the attached lipogram was done or values were determined.

Duration of therapy, if on therapy _____ Age when diagnosed _____

Systolic blood pressure reading _____

Is the patient on treatment for hypertension?

Yes	No
-----	----

Does the patient smoke?

Yes	No
-----	----

Positive family history of myocardial infarction in:

• First-grade male blood relative (father/brother) < 55 years

Yes	No
-----	----

• First-grade female blood relative (mother/sister) < 65 years

Yes	No
-----	----

Familial hyperlipidaemia:

Diagnosed by an endocrinologist?

Yes	No
-----	----

Name of endocrinologist: _____

Please indicate if the patient has/had the following conditions and supply the pathology results, where applicable.

• Coronary artery disease

Yes	No
-----	----

• Type 1 diabetes with demonstrated microalbuminuria or proteinuria – attach the pathology results

Yes	No
-----	----

• Type 2 diabetes – attach the **diagnostic pathology results** if not yet registered with Medihelp. If not available, attach the most recent pathology results with confirmation that the patient is on therapy, and state the duration of the therapy.

Yes	No
-----	----

Therapy duration _____

• Peripheral arterial disease

Yes	No
-----	----

• Stroke

Yes	No
-----	----

• Transient ischemic attack (TIA)

Yes	No
-----	----

Please specify the medicine for which you are applying _____

ICD-10 code

Surname and initials of main member _____

Name of patient _____

Member number

--	--	--	--	--	--	--	--

Section 6: Hypothyroidism

Please supply the pathology report with the baseline TSH and FT4 values. If the baseline values are not available, confirm that the pathology was done on therapy.

New diagnosis **or** On therapy

Please indicate if the following is applicable to this patient:

- TSH-value raised (in case of a new diagnosis, please attach the pathology report to this application)
- Hashimoto's thyroiditis
- Thyroidectomy
- Radioactive iodine treatment

Please specify the medicine for which you are applying _____

ICD-10 code
