The Rules of Medihelp stipulate that subscription for the Necesses benefit option is based on the member's income. Medihelp's membership policy furthermore stipulates that members of the Necesses benefit option who are studying full-time at a **tertiary institution** and earn R400 or less per month may qualify to pay their monthly subscription fees according to a lower income category, if they can submit proof of **full-time registration**.

Existing Necesses members who are already registered as full-time students at Medihelp

If you already pay subscriptions according to a lower income category based on your status as full-time student, you must supply proof of your income and continued full-time studies to Medihelp by no later than **31 March** of every year. Should you fail to do so, your subscription will be adjusted from 1 May according to the **next higher income category** than the category on which you were enrolled.

If you submit proof of your income and continued full-time studies to Medihelp only after 1 April, your subscription will be adjusted to a lower income category from the month following the month in which Medihelp receives your proof. No retroactive adjustments can be considered.

If you supply no proof, Medihelp will require you to supply proof of your income at the end of the year to determine your applicable subscription.

New enrolments and existing members who have not previously been registered as full-time students at Medihelp

Until Medihelp receives acceptable proof of enrolment as a full-time student, your subscription will be determined according to your gross monthly income. If this information is unknown, your subscriptions will be calculated according to the highest income category.

Medihelp will only adjust your subscription to a lower income category from the month following the month in which we receive proof of your income and full-time studies. No retroactive adjustments can be considered.

Medihelp accepts any of the following documentation as valid proof of registration as a full-time student:

- A notice from the institution where you are registered as a full-time student, on the institution's official letterhead; and
- Proof of income applicable to individuals.

Please note that Medihelp can only consider a request to pay subscriptions according to a lower income category once we receive the required documentary proof and a duly completed and signed "Proof of Income Declaration" form (also included). Please indicate at section 2 that you are a full-time student. Email the documents to **membership@medihelp.co.za** or fax it to **012 336 9532**. You can also make use of Medihelp's secured website to declare your income/status as a full-time student and submit supporting documentation.
