Hospital networks and day procedure networks

Medihelp makes use of quality networks of hospitals and day procedure networks where members can receive services at negotiated tariffs. These facilities have been matched with the national footprint of members and the network specialists who operate in these facilities.

2 hospital networks

Elect hospital network

MedElect hospital network

Make sure your specialist works at a network hospital

Certain specialists only admit patients to the hospital where they have their consultation rooms or perform surgeries. Members of **MedVital Elect**, **MedAdd Elect**, **MedElect** and **MedPrime Elect** must therefore make sure their specialists operate at network hospitals.

Day procedure networks

Network options

Elect day procedure network

MedElect day procedure network

These day procedures must be performed in the day procedure network/a day procedure facility

All ophthalmological, endoscopic, ear, nose and throat procedures, skin lesion removal, circumcisions, dental procedures and procedures as pre-authorized

Non-network options

Members of these options are not confined to a network, but must use any day procedure facility.

Finding a network hospital or network day procedure facility

Medihelp's website has an updated list of network hospitals and network day procedure facilities, as well as network specialists. Visit www.medihelp.co.za and use the provider search function, log in to the **Member Zone** and download the Medihelp member app available on these devices:  

Pre-authorization of hospital admissions

Planned admissions

All hospital and day clinic/day procedure facility admissions must be pre-authorized well in advance, because Medihelp may require more information from the doctor, e.g. test results or reports

Emergency admissions

Authorise on the first workday following the emergency admission

Information needed for pre-authorization

- Membership number and details of the patient
- The procedure and diagnosis codes (get these from the doctor)
- The treating doctor's details and practice number
- The details and practice number of the hospital where the patient will be admitted
- The date and time of admission
- For certain procedures, additional information may be required, such as medical reports, X-rays or blood test results. Medihelp's pre-authorization consultant will indicate what is needed
- Details of the anaesthetist

Authorisation platforms

Visit the **Member Zone** (secured website for members) at www.medihelp.co.za

086 0200 678

hospitalauth@medihelp.co.za

Use the **Medihelp member app** and select e-services to request pre-authorization

Dental procedures

Contact Dental Risk Company (DRC)
Tel: 087 943 9618
Email: auth@dentalrisk.com

Avoid deductibles

All options

Pre-authorization of planned procedures will ensure that a deductible does not apply.

Network options:

Voluntary admission to non-network hospitals will attract a deductible on the hospital account, as will voluntary admission to non-network day procedure facilities/hospitals for prescribed procedures.

Non-network options:

A deductible will apply if prescribed procedures are not performed in a day procedure facility.
